

**Global
expertise,
local passion.**

We are technology

“Our mission is to be the trusted global partner for industrial innovators, who wants to mark the future through human enhanced technology.”

Jacob Jimenez, CEO DSA Grupo

How we make the difference?

Customer Partnership

We work closely with our clients, from concept to after sales. We commit with lead time and offer the flexibility requested by today market

Sustainability

We use smart engineering that cut waste, optimize energy and optimized footprint

Human Centric Design

Our solutions are designed to be emphatic and intuitive, to create the most natural interaction between human and technology

The Impact We Deliver

- Increased efficiency
- Reduced errors
- Energy savings
- Enhanced traceability
- Security & Compliance

About DSA GRUPO

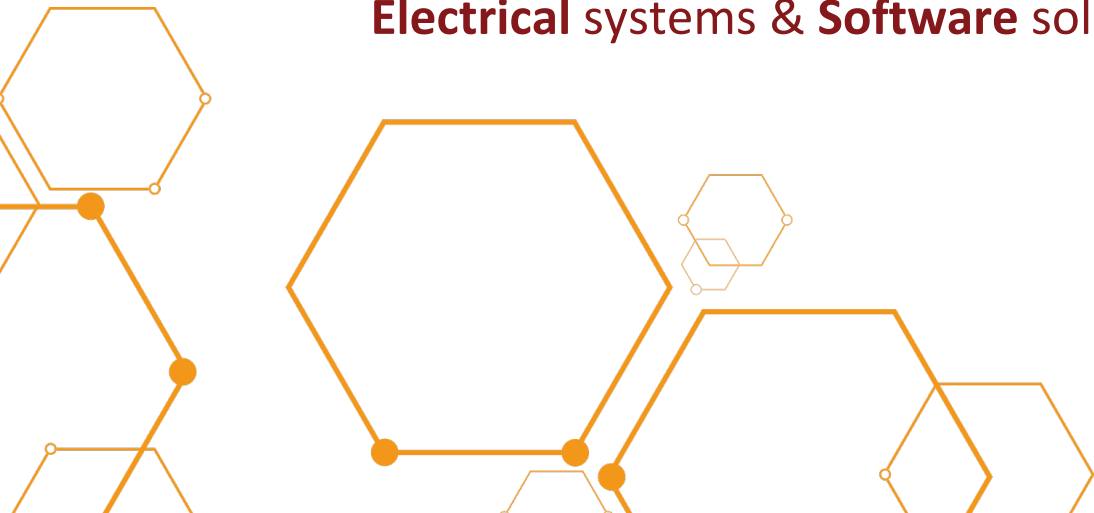

Electrical systems & Software solutions

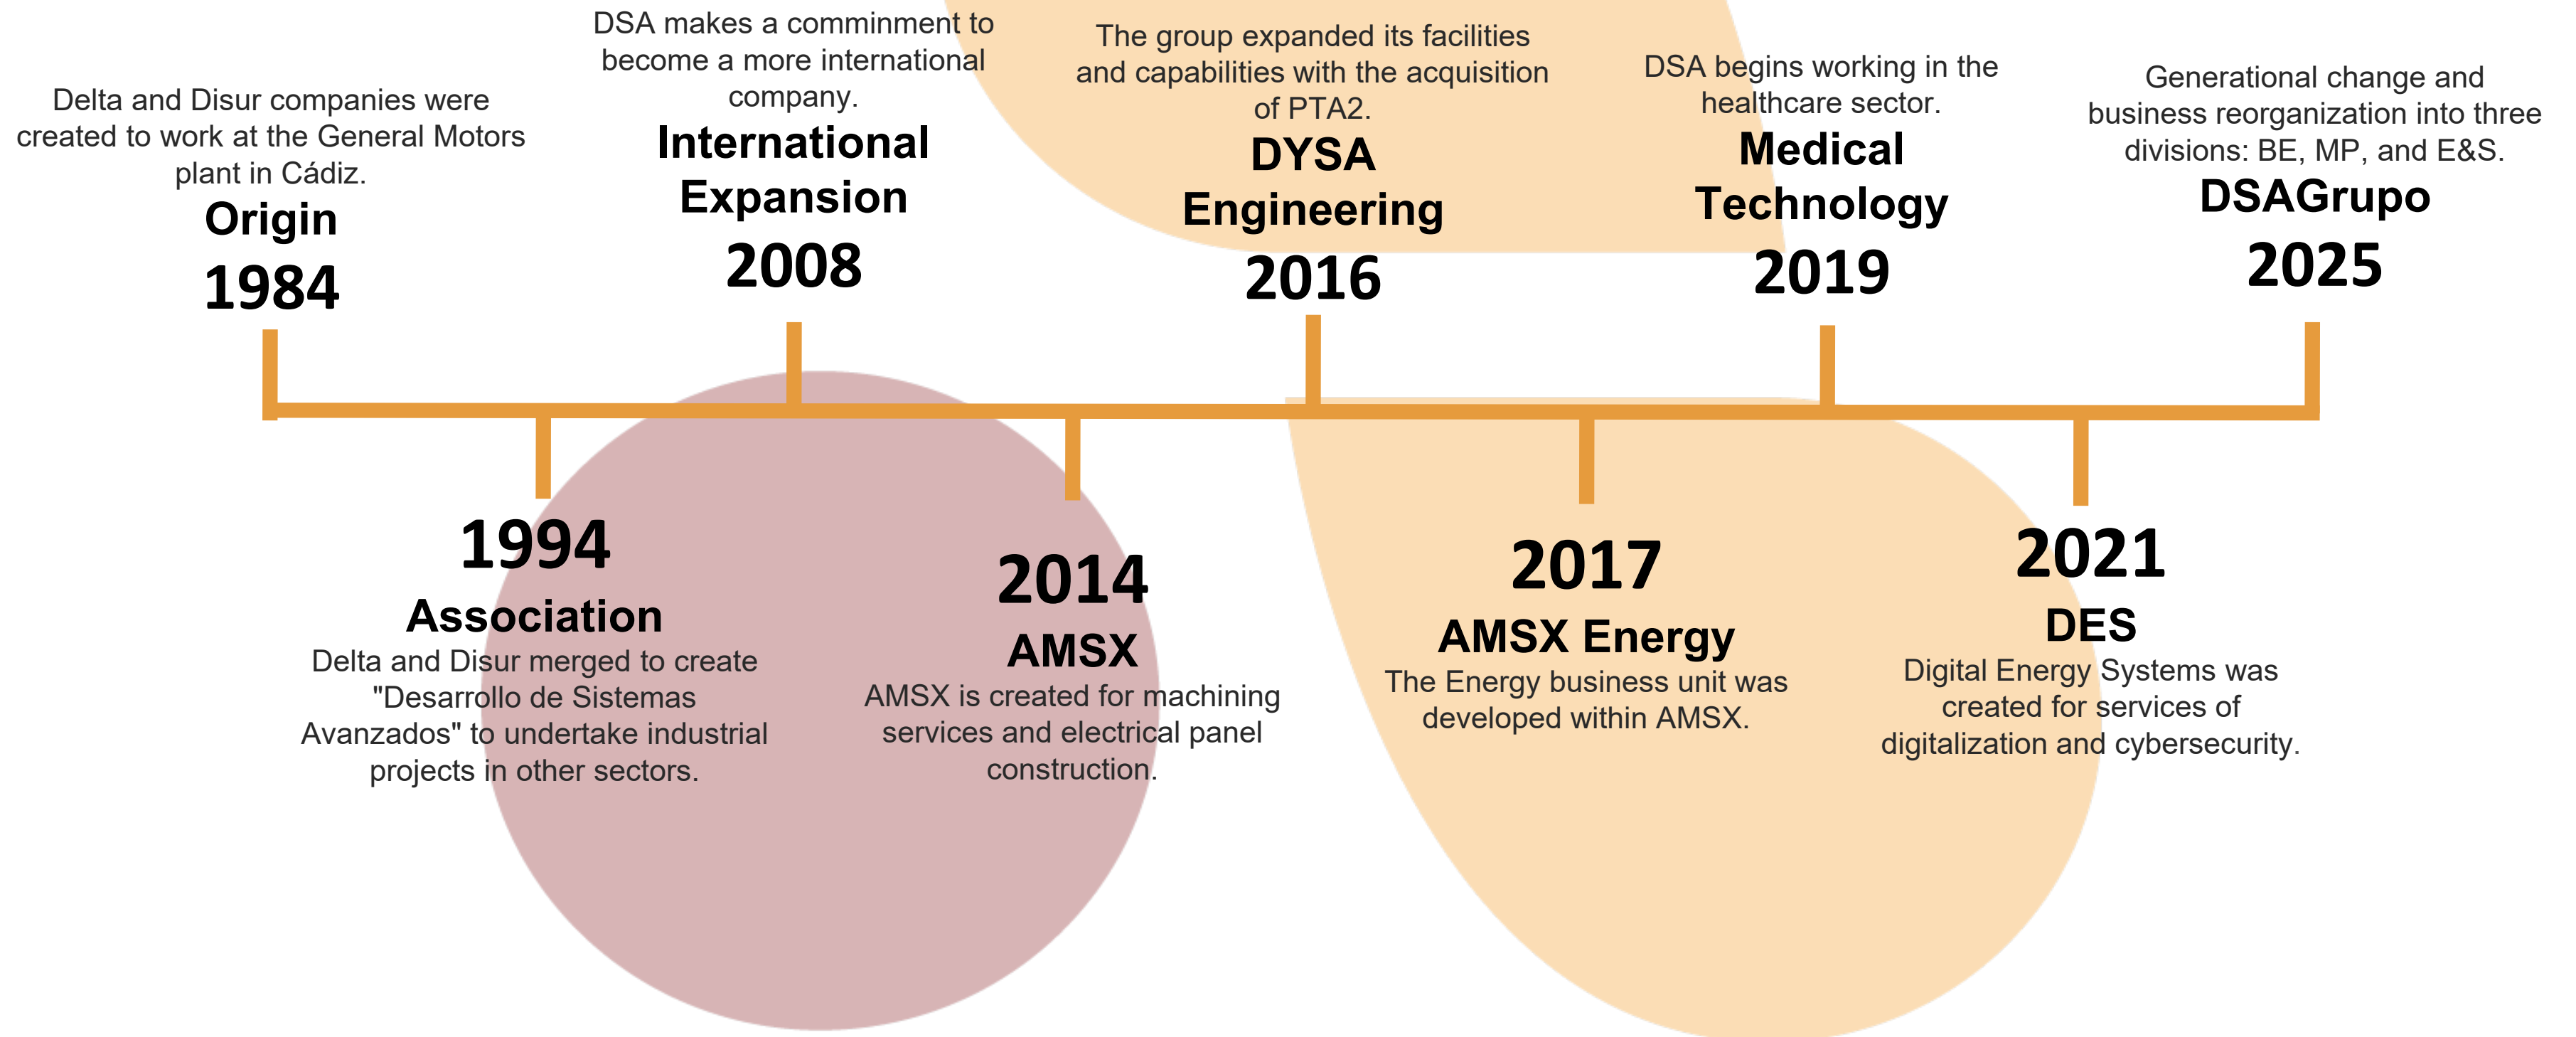

Machining and Tooling

Advanced Automation and Testing Systems

Our History

Our trusted key customers

50+ global manufacturers across 20 countries rely on us

Sectors server

 Automotive

 Defense

 Household

 Medical Equipment

 Aeronautical

 Electronics

 Textile

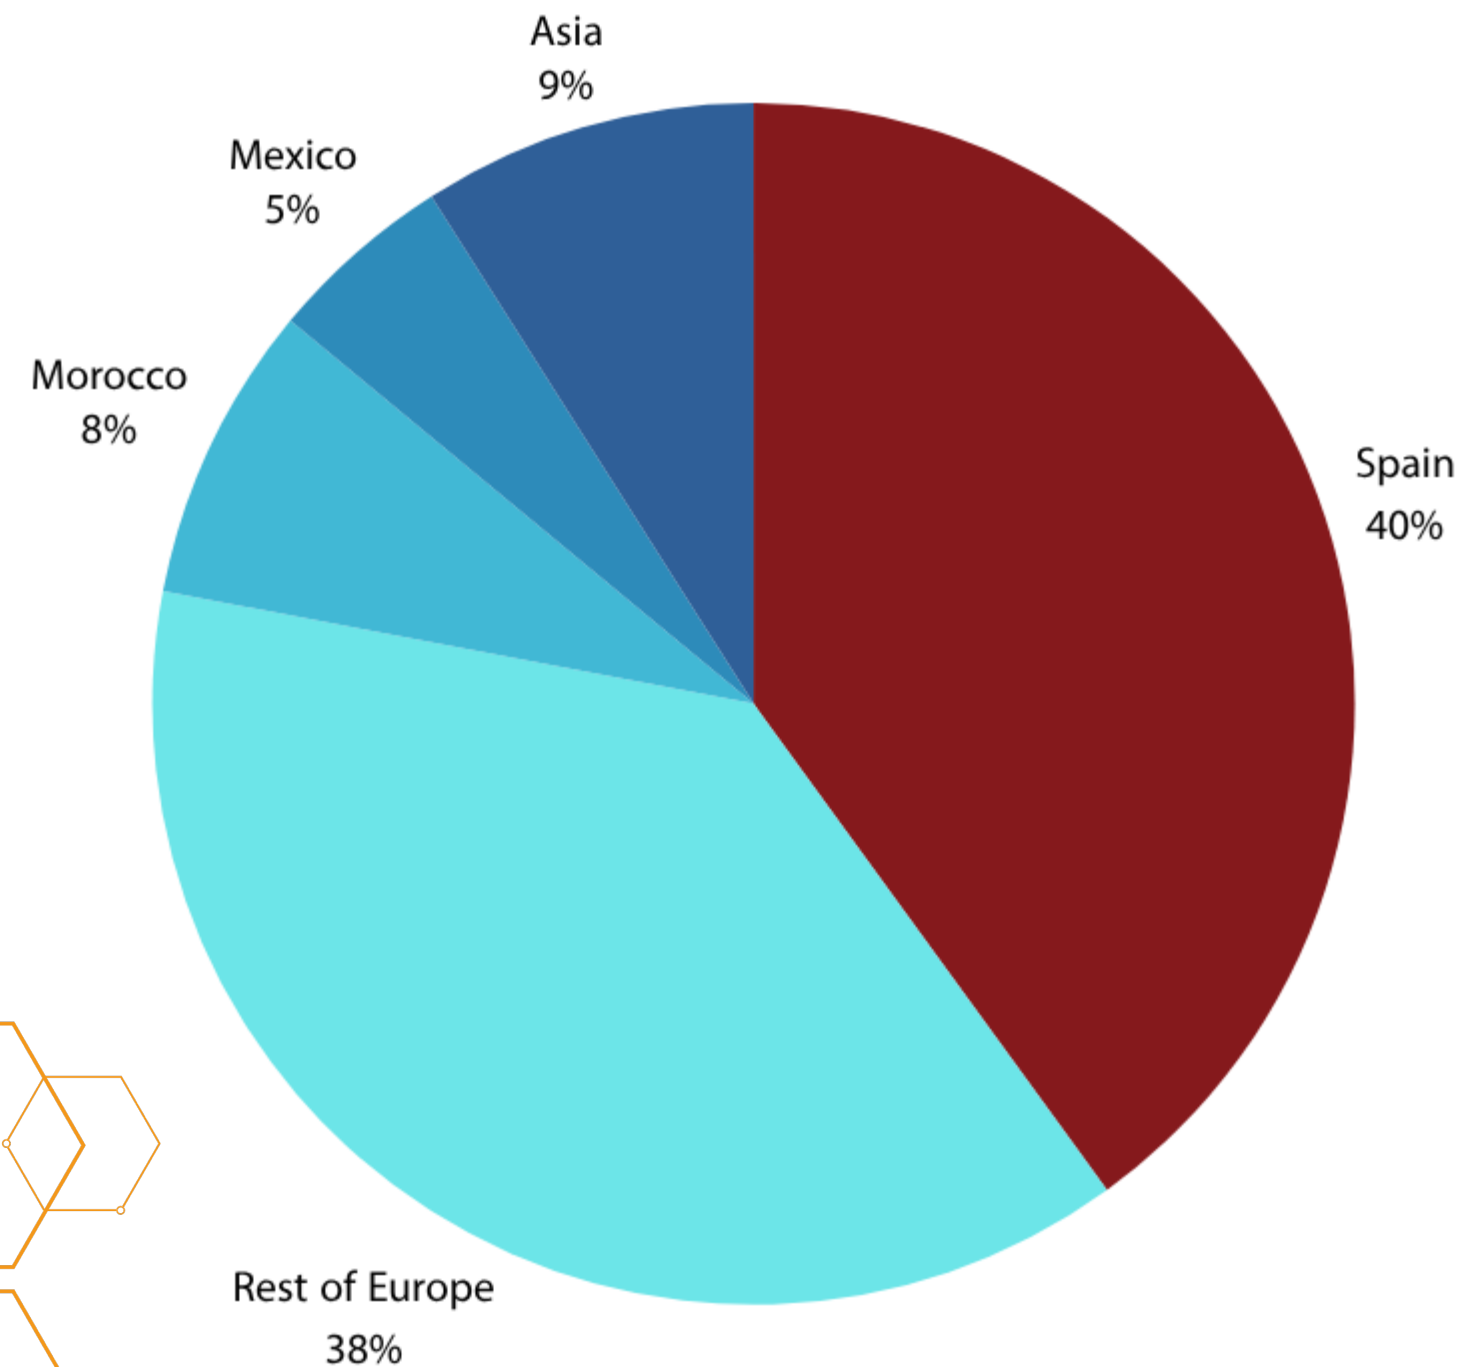

Meeting Global Standards

- ENS (ISO 27001)
- Black Level Ciberseguridad España

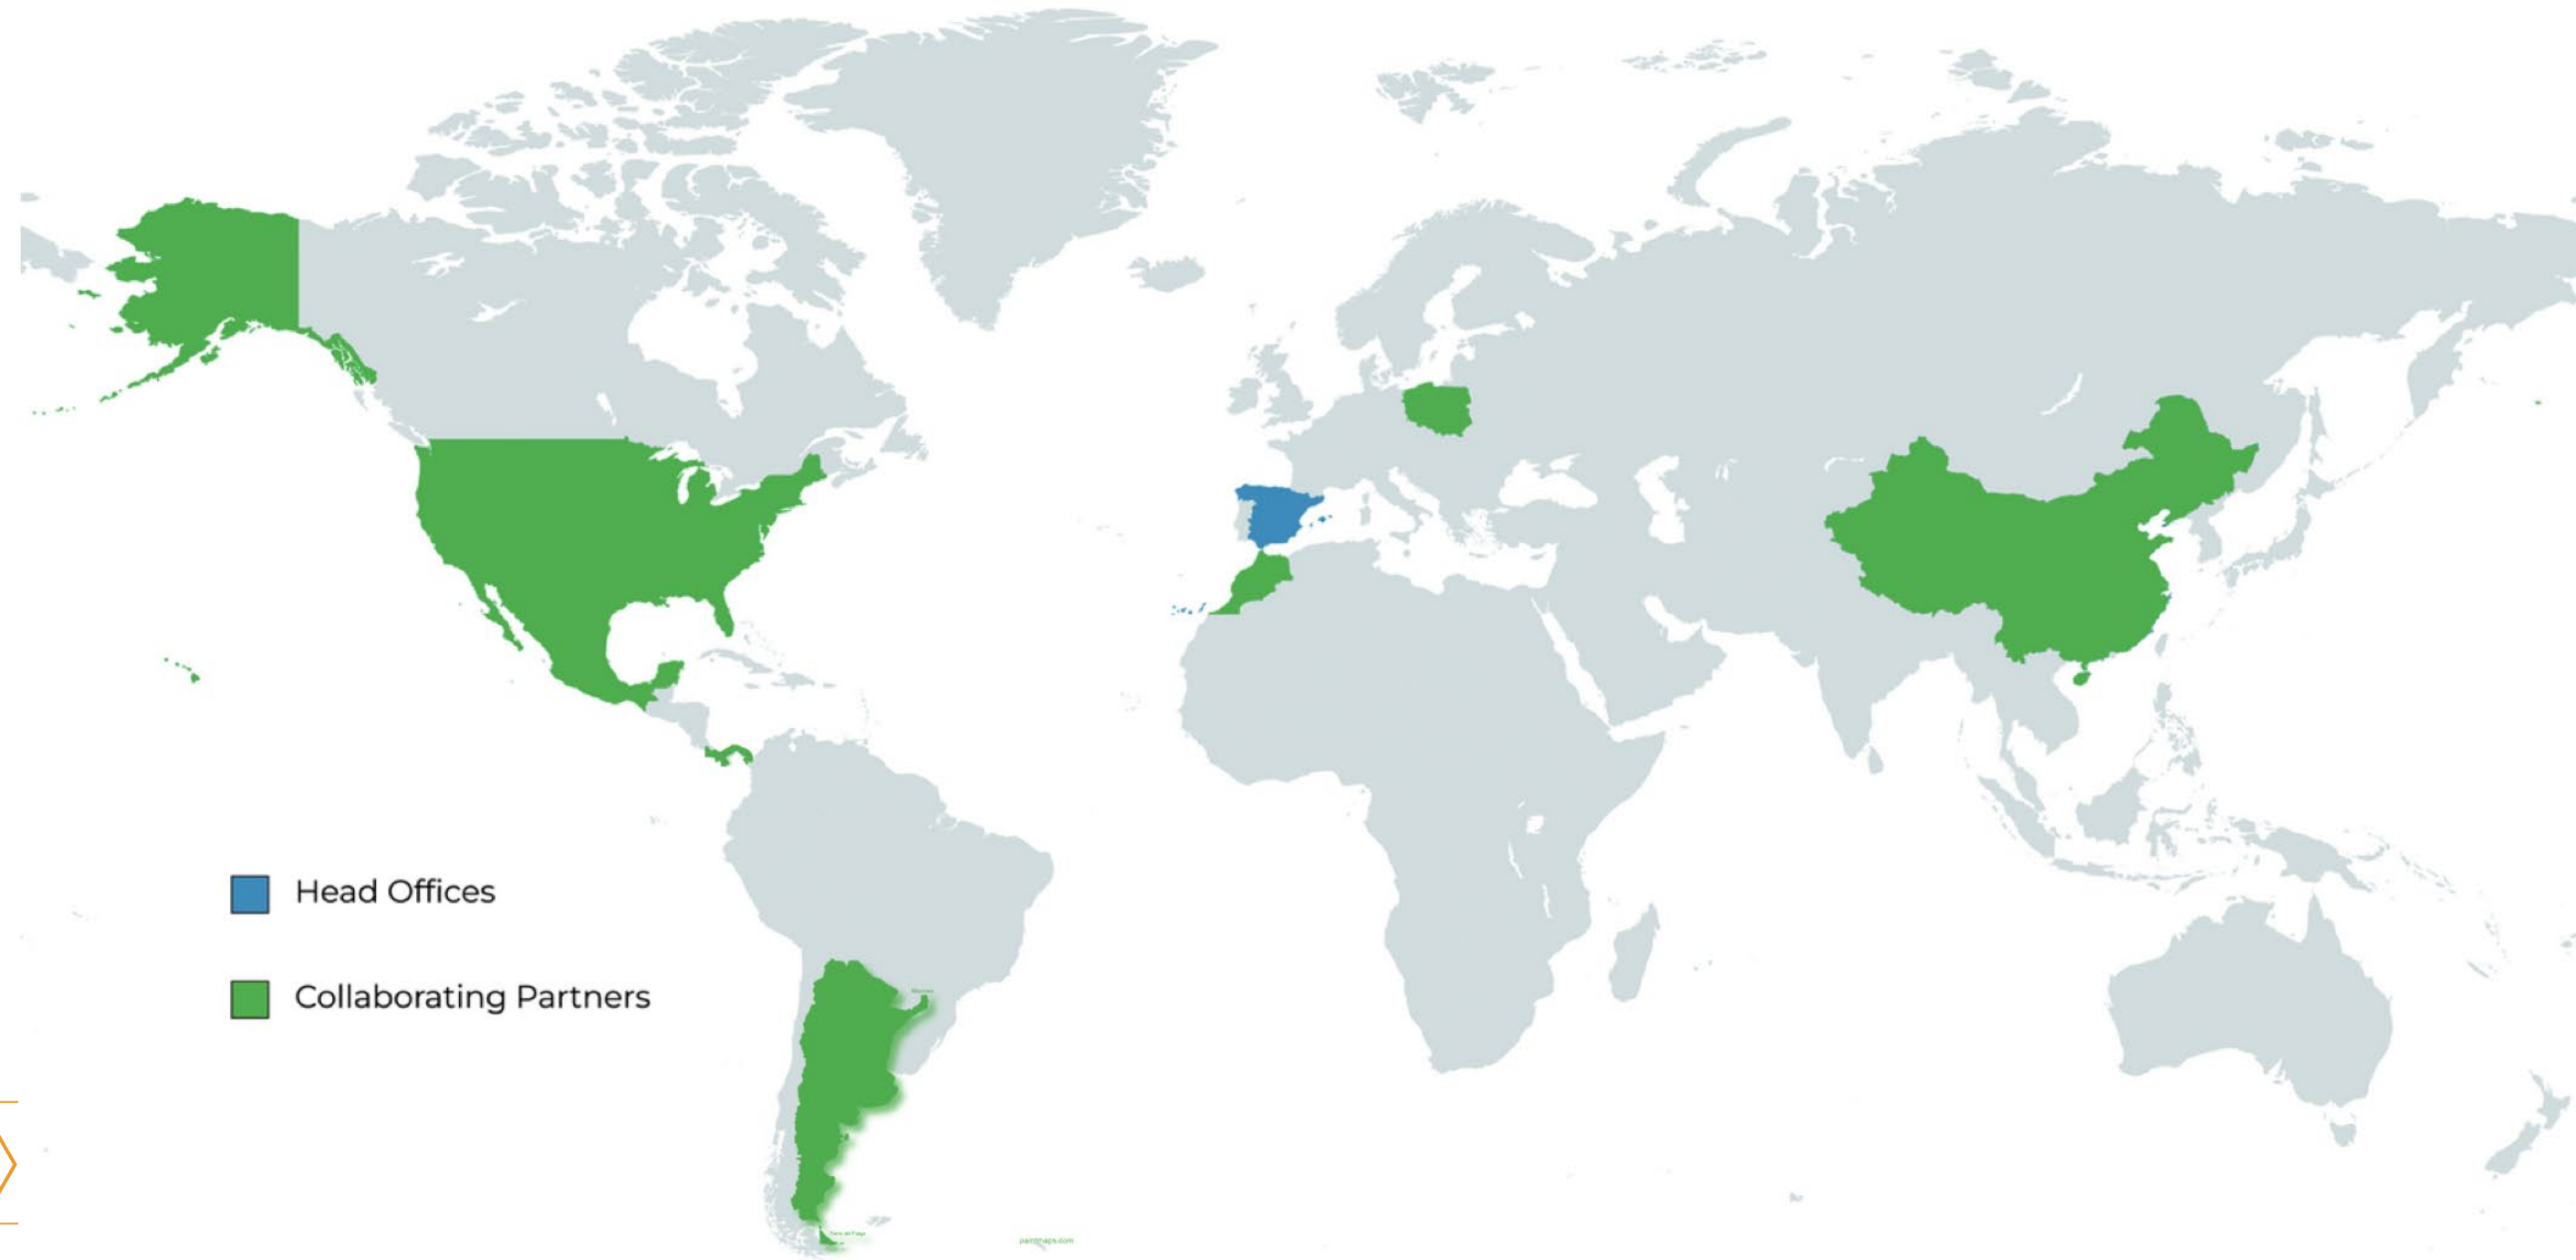

DSA Grupo in

DSA Projects distribution by Location

- **35+ Years of**
- **Experience**
- **140+ Total employees**
- **~ €20 Mln Turnover**

DSA world presence

Circular Economy and Social Impact

Higher Technician in Automation and Robotics
Electrical and Automatic Installations
Higher Technician in Multi-Platform Application Development

Advanced Technician in Multiplatform App Development

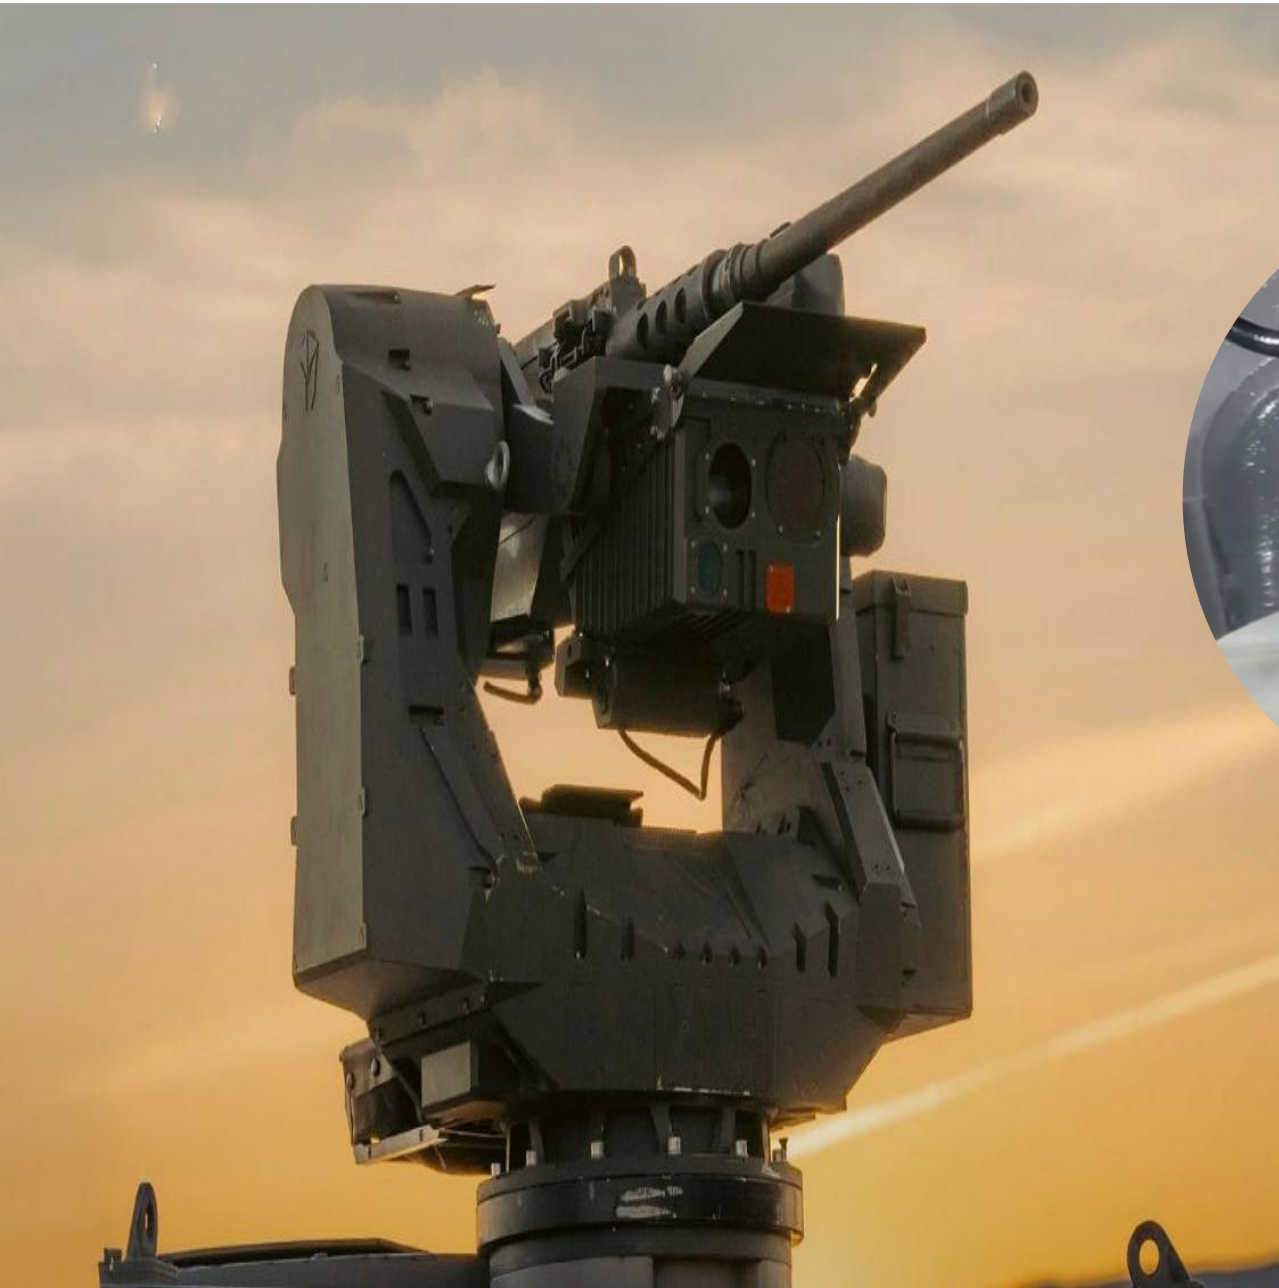

Supporting Women in STEM: Internship & Training
Contract with Special Employment Center for People with Disabilities

Participation in the Master's in Renewable Energy – UCA

Capacity and Efficient Machining focused in Defense and Aeronautic

INFORME DIMENSIONAL
P/N: SDAG-01-332A6310-16
Desig: Util soldadura
N/S - Ref: 1

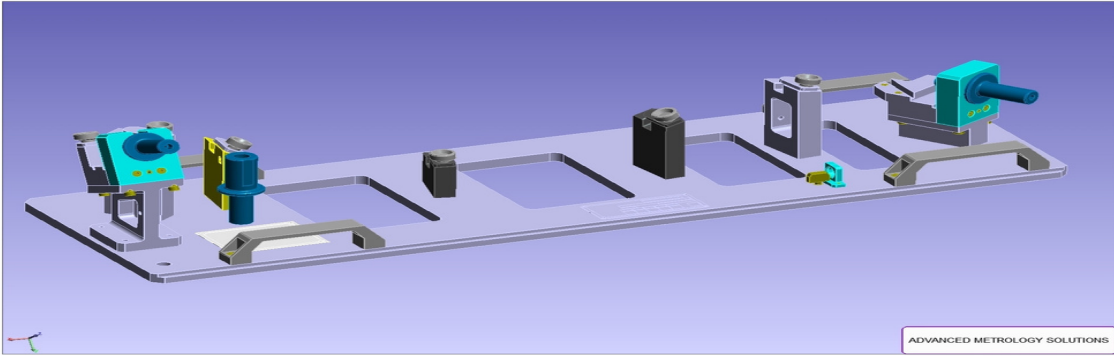

Cliente:
Contacto :
Localización :
Operador :
Equipo: Romer Absolute 7x30SI N/S: 5136 Incertidumbre: ±40µ / 10ppm
Rango Temperatura: 18.3 a/to 18.3 °C

Nº Trabajo: 290087 O.T. SGS: 68
Sello y/o firma:
Unidades: Milímetros
Presión: 1013.9 a/to 1013.9mbar Humedad: 51.0 a/to 51.0%

Descripción Trabajo:
Verificación de utillaje
Observaciones:
Modelo utilizado: SDAG-01-332A6310-16.stp

AMS (ADVANCED METROLOGY SOLUTIONS) AHORA ES PARTE DE SGS,
LÍDER MUNDIAL EN INSPECCIÓN, VERIFICACIÓN, ANÁLISIS Y CERTIFICACIÓN.

Desarrollo Avanzado de Sistemas

Our **Assembly & Test** division supports industrial organizations in expanding and increasing the efficiency of their operations

Flexible Solutions
adapting to clients needs

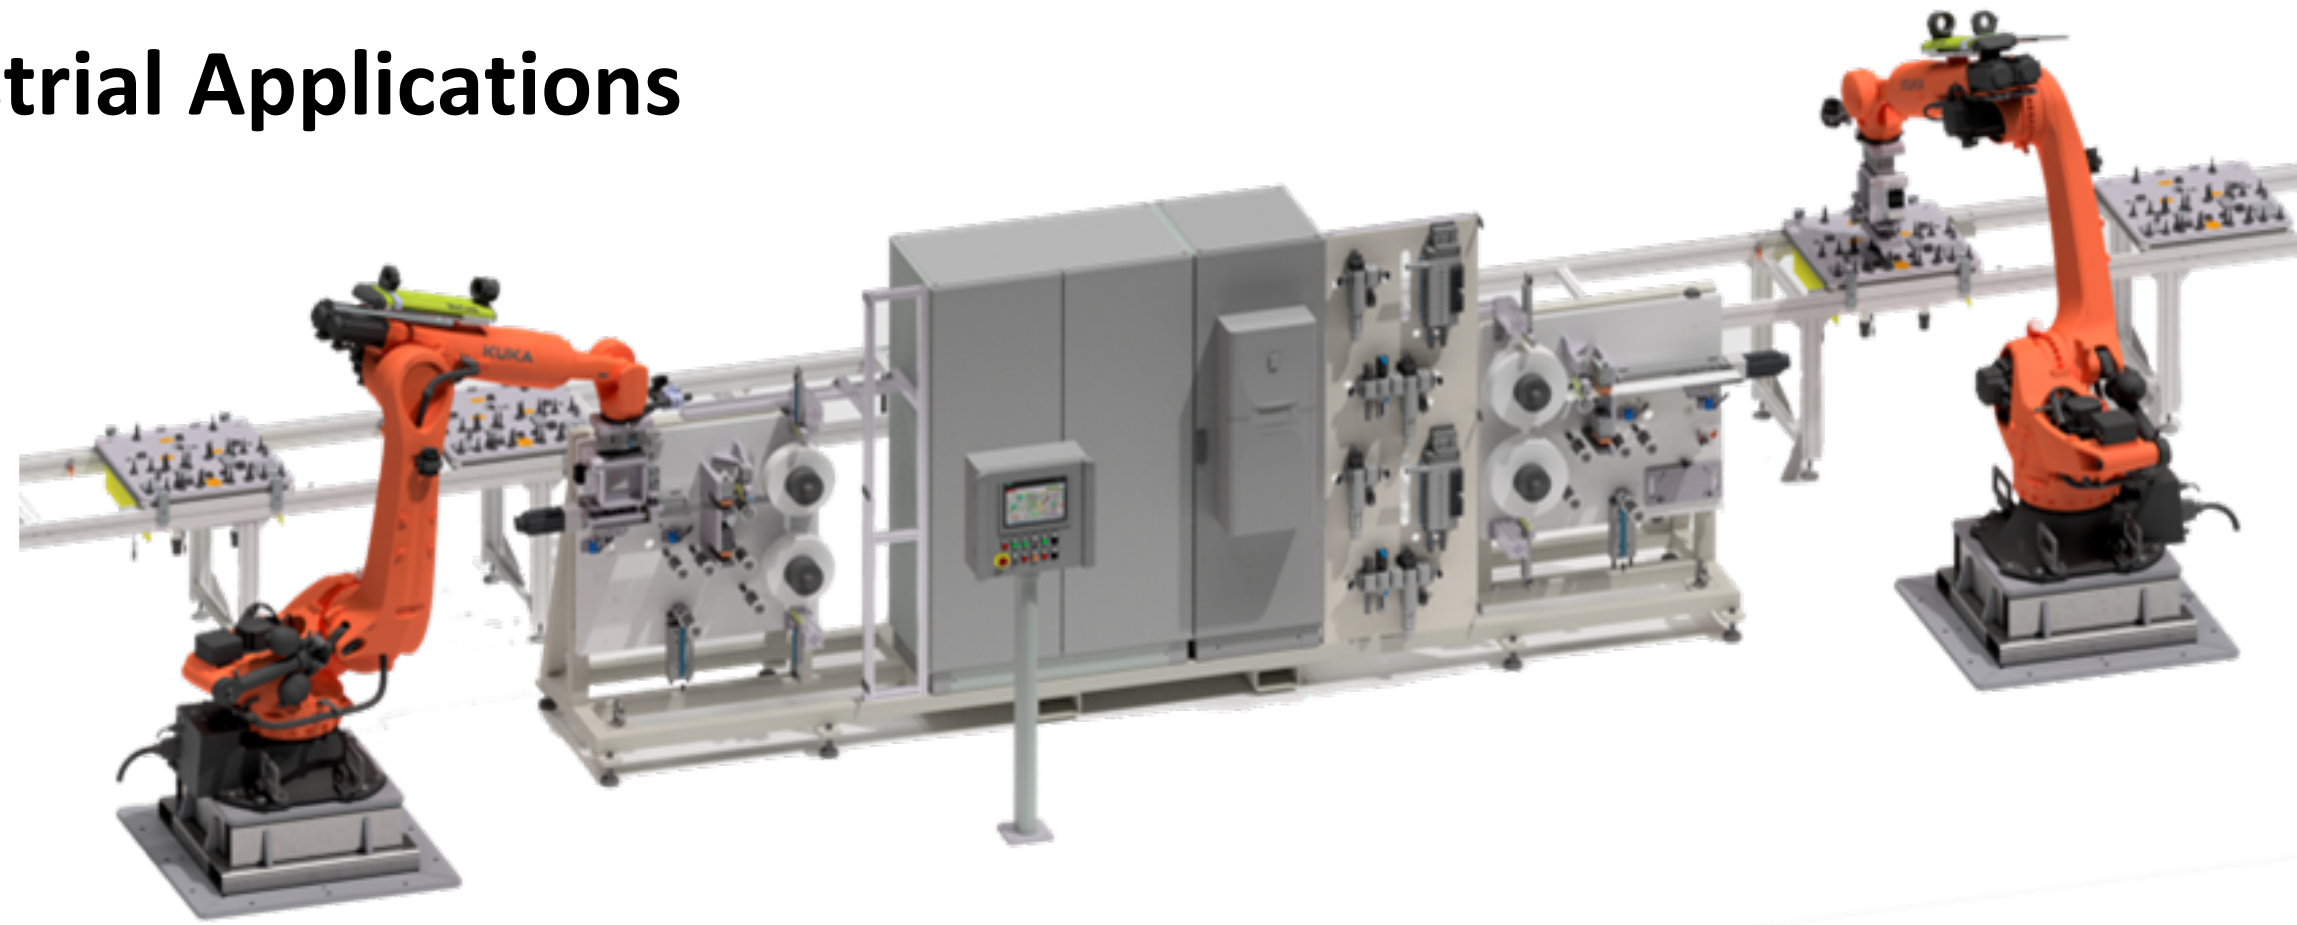

End to End Service
from Concept to After Sales

**Competitive
worldwide**
Thanks to our partnerships

What we build

-  **Lean assembly cells**
-  **Automatic assembly cells**
-  **Functional Test Machinery (Production Validation + EOLT)**
-  **Robotic Integration of Industrial Applications**
-  **Welding machinery**
-  **Pressing machines**
-  **and more ...**
